Hike and Bike For Hospice

How is everyone doing? This is Daniel Dembinski , kd8yde asking anyone with some spare time on May 17, 2015.

I am working with John Tyree kd6kcx. We are working on the Hike & Bike for hospice. This year so far we have 9 and counting, but as you know we need more so if you can please come out and join us for a morning of fun , friendship , fellow ship.

I would like to share a little bit about how hospice helped my family not only once but twice. I had two of the most awesome brothers you could ever have. My brother Edward was the first to go , he had liver cancer. He was a body builder and health minded when it came to what he put in in his body. He was the head chef at NOTER DAME. He had 3 kid and a wife. Now the cancer knows not if you are married , single or have kids. It doesn't care what your job title is. Ed was only 56 when he died and my oldest brother Ted was 62.

It will put you flat on your back and take all you have to give and more when you are in pain , and this is where hospice comes in and holds your hand and tells the family that they are there for them and to give your loved one as much dignity in dying. As I write this my eyes tear up for my brothers and I remember how nice it was when Ed wanted to see to the creek and trees one last time,that was just out side the entrance to hospice. they maid that happen for him , and that day the birds sang the sweets they had ever have. Ed's last breath was with family.

Hospice helps the patient and the family members deal with the sometimes difficult at this time in there life. They are there for the Loved one as much as they are there for the families. So to give a little time for this event is an honor and just remember all the families you are helping to say good bye to that brother, mother father or sister. I think that we all can spare one Saturday.

Sincerely.

Daniel Dembinski
KD8YDE
